Section 7—Jet Airplanes Leased Out By Airlines at Year-End 1984 Sorted By Name of Lessor ... 89-91

Introduction

Data in this edition of *World Jet Airplane Inventory* reflect, as accurately as possible, the status of the world's commercial jet airplane fleets (and some military derivatives) at the end of the year 1984.

World Jet Airplane Inventory is composed of a selected number of computer printouts from JETTRACK, a computer-based jet-airplane-inventory system kept by the Market Research Department of Boeing Commercial Airplane Company. Fleet data in this system are obtained from many different sources, including airframe manufacturers, airplane owners and operators, governments, and trade publications.

This document provides details for announced orders, deliveries, and inventories for all commercial jet airplanes built in the United States and Western Europe with a capacity of 60-seats and up. In addition, the year-end 1984 inventory data in Sections 4 and 6 include non-Russian operators of the YAK 40 and larger jet equipment built in the U.S.S.R.

Announced jet airplane orders are summarized in Section 1. Orders that were placed and later cancelled are treated as if they never occurred.

The tabulations include all airplanes delivered to the market through December 31, 1984. This includes a small number of airplanes that were never sold by the manufacturer, but entered the commercial market on a lease basis. Not included are those manufacturer-owned airplanes that were never sold but are (or were) used exclusively for the manufacturer's private purposes, such as flight testing, route proving, etc.

Many older airplanes are parked or stored at many different locations around the world. The cost of restoring these airplanes to flight status often far exceeds their market value. A serious attempt has been made to exclude these run-outs from the counted inventories shown in this document.

The fleet inventory data in previous issues of this book have often been quoted as "airplanes in service." It should be emphasized that the counted inventory includes a number of airplanes that were not in service at the end of 1984. Obvious cases are airplanes in the inventories of brokers, leasing companies, and airplane manufacturers. This last category generally consists of trade-in airplanes. A number of airplanes in the airline inventories were parked pending re-sale, repairs, hushkitting, freighter conversion, etc. Details on airplanes temporarily parked by airlines are given in the footnote to Section 1, Table 8, on page 10.

Leased airplanes are included in the operators' fleets. Section 7 provides details on airplanes leased out by airlines.

Abbreviations

Operator names in this document are often abbreviated and therefore may vary from official names.

Some frequently used abbreviations of operator names include:

AL	Airline(s), Aerolineas, etc.
AT	Air Transport, Aero Transportes, etc.
ATC	Air Travel Club
AVN	Aviation
AW	Airways
GOVT	Government
INTL	International
TA	Transportes Aereos, etc.

In Sections 1 and 5, three-letter abbreviations are used for airplane types. These abbreviations are mostly self-explanatory with the following exceptions:

CVR	Convair 880 and 990
M80	MD-80 (DC-9-80)
D10	DC-10-10, -15
DLR	DC-10-30, -40, KC-10A
L10	L-1011-1, -100, -200
LLR	L-1011-500
727	727-100, -100C/QC, -100F
72S	727-200, -200F

Airplanes built in Western Europe:

A30	A300
A31	A310
BAC	BAC One-Eleven
146	BAe 146
CMT	Comet
CON	Concorde
CVL	Caravelle
MRC	Mercure
TRD	Trident
V10	VC10, Super VC10

Sections 4, 6, and 7 provide details by airplane type and series. Most of the series designations are used throughout the industry, with the following exceptions:

DC-8 long body: series -61, -71, -63, -73
DC-8 standard body: all other DC-8s, including the series -62, -72

Series ending with "F" are either freighters or are airplanes originally delivered as passenger airplanes that were later fitted with a large cargo door. Included in the latter category are the following:

BAC 1-11-400F
Convair 880-22F
DC-8-20F, -30F, -61F
707-120BF, -320F
747-100F (also called 747-100 Special Freighter)

Airborne Express' DC-9-10LWF and DC-9-30LWF (Light Weight Freighter) are former passenger airplanes converted to freighters without a large cargo door.

Of the 115 listed 727-100Fs, 99 are former-100C or -100QCs, which already had the large door. The remaining 16 are converted -100 passenger airplanes.

Of the 18 listed 727-200Fs, 15 are original freighters, and the remaining three are former -200s.

A number of the DC-8-50Fs, DC-8-63Fs, DC-8-73Fs were originally delivered as DC-8-40s, -50s, -63s, or -63Cs.

707-320Cs configured as freighters are still listed as -320Cs (a -320F is a -320 converted to freighter).

Series ending with "C" are convertibles. Many of these are used as freighters while remaining convertible.

Series ending with "M" are Combis: 747-100M (converted 747-100 for Sabena), 747-200M (also called 747-200B SCD), and 747-300M.

KLM's fleet at year-end 1984 includes one 747-300, which is a former -200B fitted with an extended upper deck. Nine more of these conversions will be done for KLM during 1985 and 1986.

Notes:
1) Deliveries exclude airplanes which were built, but which never entered the market. They are - or were - used by manufacturers for testing purposes, etc.
2) "B/U, etc.": Wholly or partly broken up, cannibalized for parts, stored but known to be broken up in near future, used for ground crew training, used for structural testing, used for fire practice.
3) "Preserved": Airplanes on display in museums, etc. (excludes preserved airplane sections)
4) "Retired, still stored": Stored run-outs (intact or derelict)

*W/O = Written-off
